EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Anthony Insogna on May 24, 2005.

The application has been amended as follows:

In claim 24, line 2, delete "330" and insert --300--.

In claims 67 and 68, delete "62" and insert --1--.

Cancel claims 62-66.

Prior Art of Record

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patent Nos. 6,114,355 and 6,235,756 each disclose a method of using thalidomide to treat undesired angiogenesis. They do not render the instant claims obvious under the judicially created doctrine of obviousness-type double patenting, since thalidomide differs over EM-138 by the presence of a piperidyl moiety and is not an epoxide or hydrolysis product of an epoxide of EM-138.
